IVY Internship Program (SQL)

Ivy Internship Program on **Data Analysis using SQL** module is a 3 weeks Program (12/06/2021 – 03/07/2021).

Special Rewards for Top 3 Interns (Consistent Speed and Accuracy will be Testing criteria) on successful Completion of the Internship.

Program Guidelines/ Flow Structure:

1) SQL Challenge will be posted every alternate day at 8 PM with Submission Deadline of 24 Hours.
2) You are required to submit the screenshot of the query along with the output table in the same page.
3) Also record a 3-4 seconds video running your query and upload that video on your Google drive.
4) You can then post the Video Link in comments on Google Classroom. (Make sure to make the Video link Public before Posting).
5) No Resubmissions allowed.
6) After each Deadline is over, the Interns with correct submission are required to post about the challenge completed on their LinkedIn profile.
